## SHELF-BOX FOR NOTEBOOK

**Oliboard box** is a wall-mountable unit for use with a multimedia interactive whiteboard, providing a **practical shelf for a notebook** and a compartment to store the notebook safely when not in use.

The internal compartment can also be used to store other system accessories (e.g., video-projector remote control, IWB electronic pens, graphics tablet).

Oliboard box is ideal for schools because it enables staff to keep all the equipment needed for the whiteboard close to hand and ready for use, and avoids unsightly and hazardous cables on the floor.

**FOR NOTEBOOKS UP TO 15.6" WIDE AND POWER SUPPLY**

**OPENING/CLOSING MECHANISM PRACTICAL AND ERGONOMIC FOR IMMEDIATE OPERATION**

**LOCK AND KEY**

**CAN BE USED WITH ORDINARY PADLOCKS AND WITH KENSINGTON® KEYED LOCKS**

**USE WITH ANY IWB**

## SOLUTION BENEFITS

### EASY TO USE

The shelf opens and closes with a simple movement, and can be locked.

### ERGONOMIC

The shelf can be used with any type of notebook, for a maximum display width of 15.6".  
The limited depth ensures unimpeded use of the IWB.

### PROTECTION

Oliboard box is equipped with a lock and key and can be used with two padlocks available from any retailer.  
It can also be fitted with the cable of a Kensington® keyed lock for a notebook on the shelf.

## TECHNICAL CHARACTERISTICS

<p><b>Shelf safety</b> To avoid the possibility of the notebook falling off the shelf, the open-close mechanism prevents unintentional closing. Rounded corners prevent injury and damage if the shelf is bumped.</p>	<p><b>Security cupboard function</b> The internal compartment can hold a notebook or netbook of various sizes (up to a max 15.6" width screen) together with power supply; it can also be used to store IWB and video-projector accessories.</p>
<p><b>Electrical safety</b> Installation next to the whiteboard prevents the connection cables from impeding use of the whiteboard and avoids the need for wireless connectivity between the whiteboard, the video-projector and the computer.</p>	<p><b>Net-top integration</b> As an alternative to the notebook, Oliboard box can be used to install a net-top computer, equipped with a stand for mounting on 4 VESA 100x100 mm holes.</p>
<p><b>Sturdy attachment to the Oliboard IWB</b> When installed with Oliboard 78S/78D whiteboards and the Oliboard Wall100 integration kit, a special mount is available to attach the box firmly to the wall and also to the IWB and the integration kit.</p>	<p><b>Dimensions (WxDxH)</b> Closed shelf: 430x88x352 mm. (usable internal area: 426x55x300 mm.) Open shelf: 430x370x352 mm. (shelf 430x370 mm.)</p>
